

ETT AR-18S

Roundel-Automat

With its compact dimensions, the ETT AR-18S is particularly recommended for the provision of industrial safety articles such as gloves, skin protection articles or hearing protection.

The customisable partition walls are adapted precisely to the products to be stored and allow a high degree of storage flexibility. The ETT AR-18S is therefore precisely customised to your needs.

Supported by the ATMS-CORE software and a sliding door with an optical guidance system, only the previously selected item is made available to the user. This means that work safety articles are always available close to where they are needed.

Available as a control unit and extension unit

Standard colour: RAL7035 light grey and RAL7012 basalt grey

The ETT AR-18S is made for:

Protective gear

Gloves

Safety glasses

Masks

Measuring device

ETT AR-18S

Technical Data:	
Depth	790 mm
Width	805 mm
Height	1.920 mm
Number of compartments	405 – 810 compartments (depending on configuration)
Own weight/load	420 kg / up to max. 125 - 324 kg (depending on configuration)

Compartment type (*)	Total number of compartments	Number of compartments/level	Max. Number of levels	A (mm)	B (mm)	C (mm)	D (mm)	Max. Load/level (kg)
