

# ETT AR-19 600

## Roundel-Automat

With its maximum payload of 600 kg, the ETT AR-19 600 was specially developed for the provision of cutting tools.

Three standard configurations ex works, as well as the option of customising the drum with a unique configuration, open up almost unlimited application possibilities for industrial use. A maximum of 740 (standard) to 1,140 (special version) compartments on 19 levels are possible.

Supported by the ATMS-CORE software and a sliding door, only the previously selected item is made available to the user. This means that tools are available for use at all times Translated with DeepL.com (free version)

Available as a control unit and extension unit

Standard colour: RAL 7012 basalt grey matt

### The ETT AR-19 600 is made for:

Measuring device

Tensioning

Tools

Abrasive material

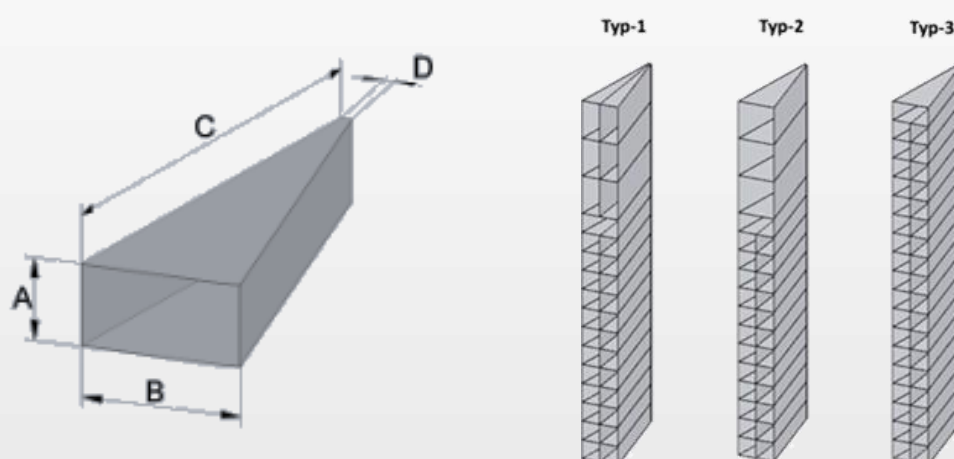

Protective gear

## ETT AR-19 600

Technical data:	
Depth	1.025 mm
Width	985 mm
