

# ETT EL

## Drawer-Automat

The ETT EL is an automatic dispenser for tools, small parts or measuring equipment and is designed for complex requirements.

The height-adjustable drawers with flexible compartmentalisation options enable a wide range of uses. All drawers can be electronically locked to prevent unauthorised access.

Supported by the ATMS-CORE software and locked drawers, you can secure your tool and measuring equipment management. This means that the products are available for use at all times. Thanks to the 'Control Top' add-on module with built-in PC and screen, every ETT EL can be used as a control unit.

Available as a control unit and extension unit

Standard colour: RAL7035 light grey and RAL7012 basalt grey

### The ETT EL is made for:

Tools

Measuring device

Screw

Tensioning

Abrasive material

## ETT EL
