ETT SaveReturn

Return-Automat

The ETT SaveReturn vending machine ensures the controlled return of used or contaminated products.

The ETT SaveReturn helps to put environmental protection into practice. The software also registers the return of the product to a specific user, which can also be done selectively, depending on which main unit (ETT SavePro, ETT SaveBox, etc.) it was taken from.

The variants with one, two or three collection containers ensure maximum flexibility in your recycling processes

Only available as an extension unit

Standard colour: RAL7012 basalt grey

The ETT SaveReturn is made for:

Gloves

Protective gear

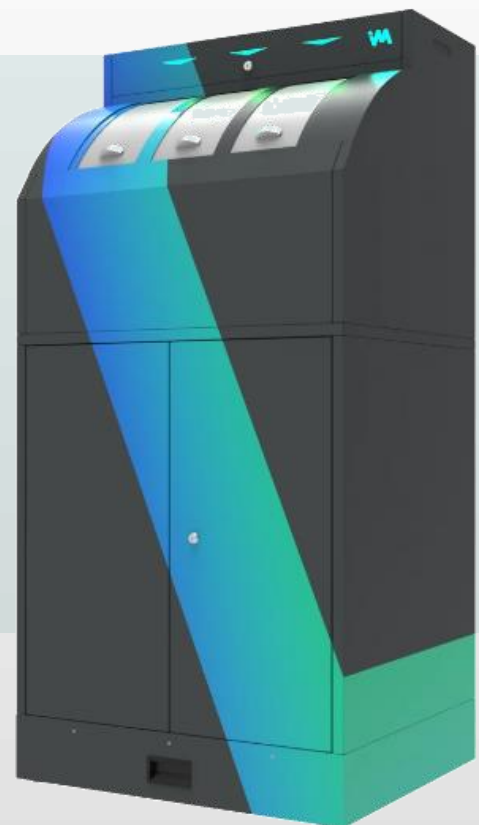

Abrasive material

Masks

Safety glasses
