

ETT X'Smart

Technical Data:	
Depth	742 mm
Width	765 mm
Height	2.000 mm
Number of compartments	8
Own weight/load	195 kg / 25 kg per compartment (with even load)

ETT i.cupboard 4.0

Load cells -Automat

With its individually integrated load cell shelves, ETT i.cupboard 4.0 has been specially developed for the fast and reliable provision of MRO C-parts.

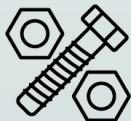

Four different shelves with precise load cells, which can be exchanged or extended and can also be operated without a cabinet, offer a high degree of flexibility. Real-time monitoring of the measurement data means that uncertainties about current stock levels are a thing of the past.

Supported by the e-nventory cloud software, the ETT i.cupboard 4.0 will automatically reorder at defined threshold values and prevent out-of-stock situations. The ETT i.cupboard 4.0 is also ideal for issuing PPE items.

Only available as a control unit

Standard colour: RAL 7035 light grey and RAL 5015 sky blue

The ETT i.cupboard 4.0 is made for:

Screw

Gloves

Masks

Abrasive material

Protective gear

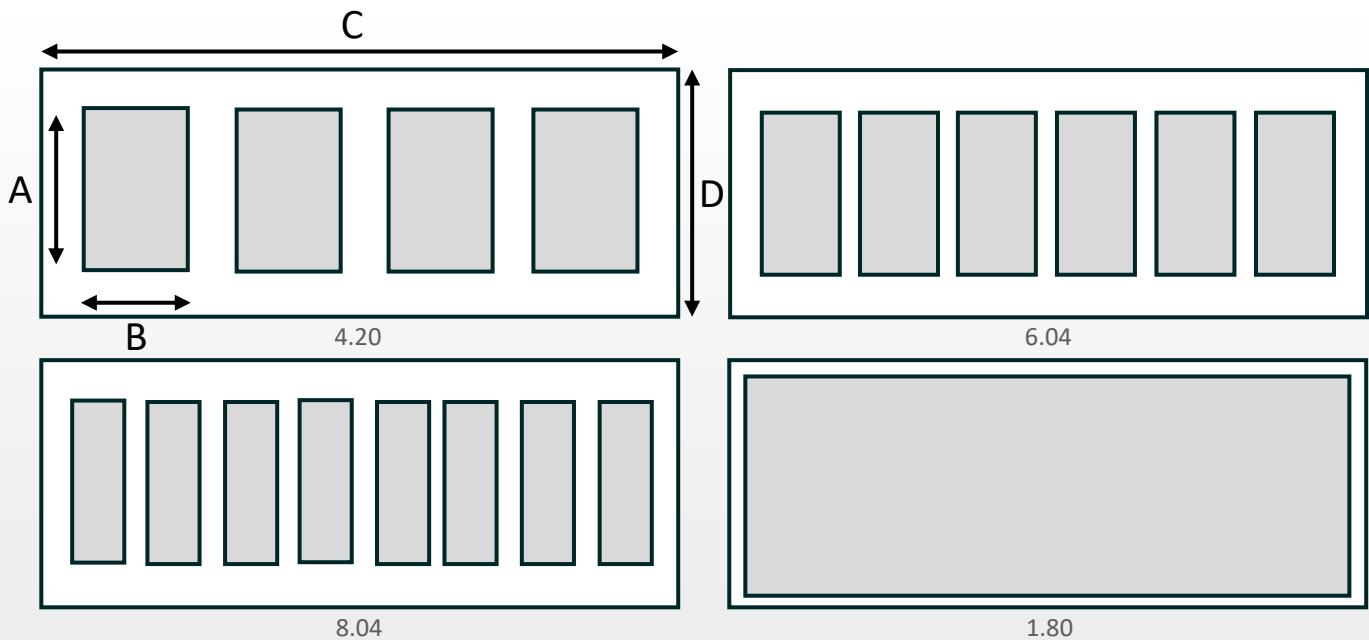

Safety glasses

ETT i.cupboard 4.0

Technial Data:	
Depth	430 mm
Width	1.067 mm
Height	2.000 mm
Number of compartments	1 – 80 (depending on configuration)
Own weight/load	140 kg (Empty weight) / 4 – 80 kg per load cell

Compartment type	Total number of compartments	Number of compartments /level	A (mm)	B (mm)	C (mm)	D (mm)	Max. Load/com partment (kg)
